We will cover ice breaker activities, rituals, lifecycles, feelings of grief, healthy ways to deal with those feelings, grief dreams, secondary losses, mindfulness exercises, and remembering activities. This is sure to be a fun and interactive workshop and will hopefully provide you with some ideas and tools for you to use when helping support children dealing with grief and loss.

What you will receive from attending this training: a complete 8-week outline for a Children's Grief Group; a list of supplies suggested for each week; handouts for the group; caregiver handouts; and copies of Woodland Wisdom Books by Dallas Shirley.
